

INTEGO. TRANSCENDENTAL

TREATMENT CENTER

RISE ABOVE THE ORDINARY WITH INTEG0

Based on Sirona's heritage of combining innovative technology and award-winning design, INTEG0 is an entirely new generation of treatment centers that is as admirable as it is affordable. Reliable and efficient, stylish and contemporary, INTEG0 proves that excellence and value are not mutually exclusive.

TRANSCENDENTAL

A treatment center unlike any other, INTEG0 takes the entire treatment experience to new heights of success through the thoughtful synthesis of innovation, style, and technology. INTEG0 represents dentistry at its most extraordinary, distinguishing your practice as a pioneer among your peers.

| INTEGRATION

FLEXIBLE CONFIGURATIONS FOR THE WAY YOU WORK.

Your workday is complex and places many different demands on the treatment center you choose. INTEGO provides the perfect solution to integrate with your workflow: A choice between two models with flexible configurations designed to meet your needs, each offering optimal performance.

INTEGO TS
Traditional Delivery

INTEGO CS
Continental Delivery

BOTH MODELS OFFER THE FOLLOWING:

- EasyTouch user interface, allowing complete control of the instrument in use, with a screen showing you what you need when you need it.
- The USB port offers you the possibility to connect your Schick sensor and take x-ray images right at the treatment center with the optional HELIODENT^{PLUS} intraoral source.
- Integration with SIDEXIS 4 with direct control through the EasyTouch touch screen.
- The Endodontic function allows you to use your file system with the INTEGO's interface, EasyTouch, and the ENDO 6:1L attachment.
- 22" HD monitor that allows you to explain intraoral and x-ray images, software and planning views, media player files, and PowerPoint presentations to your patients directly at the treatment center.
- A network interface in the patient chair and a USB port in the dentist or assistant element allow you to integrate new functions and network your practice—troubleshooting by your service technician is also much easier.

INTEGO

| DESIGN

CREATED TO BE WITHIN YOUR REACH

Brilliance is the fusion of style and simplicity, the combination of contemporary design components at work, and the connection between you and your patients. From the thoughtful ergonomic features, to the reliable armrests, to the almost visceral elevation system—INTEGO provides optimal comfort to you and your patients throughout the treatment process.

HIGH QUALITY

Durable materials, quality workmanship, and sturdy, future-proof design.

CLEAN LINES

Flowing, continuous surfaces that are as pleasing to the eye as they are easy to clean.

THIN BACKREST

Allows easy and unencumbered access to the oral cavity.

UNENCUMBERED MOVEMENT

Smooth chair back and seat bottom; even the right armrest can be rotated forward for better access.

FLEXIBLE INTO THE FUTURE

Customized settings allow you to configure INTEGRO exactly the way you need for optimal support of your treatment workflow. Additionally, INTEGRO is fully upgradable, allowing you to add technical options and interfaces so you are ready for future applications.

| EXPERIENCE

PATIENTS COME IN ALL SHAPES AND SIZES,
BUT COMFORT IS UNIVERSAL.

The INTEGRO patient chair features an ergonomic design and, together with the headrest, ensures that your patients are especially comfortable. The chair lowers far enough for even shorter patients to get in and out easily. The double articulating headrest is quickly adjustable to various treatment situations and patients with different statures, and the variable foot rest allows taller patients to rest their feet comfortably. High quality upholstery enhances comfort even during extended treatments, and the tilting backrest matches the movement of the patient's spine to prevent stretching and compression effects. One thing is certain—patients who realize a comfortable and relaxed experience in the chair feel more secure and remain loyal to your practice.

INTEGO EQUIPMENT OPTIONS

OPTIONS FOR THE PATIENT CHAIR

2 treatment positions, S and O position	<input checked="" type="checkbox"/>
Number of user-specific settings	2
Chair lift system 407 lbs (185 kg)	<input checked="" type="checkbox"/>

☒ Standard ☐ Optional

As the heart of your practice, INTEGO harmoniously combines appearance and functionality. In addition to its harmonious design, coordinated components, and a variety of upholstery selections, INTEGO provides optimal access to the patient and smooth treatment workflows with a high level of patient comfort.

LEDVIEW OR LEDLIGHT OPERATING LIGHTS

Ideal illumination of the treatment area.

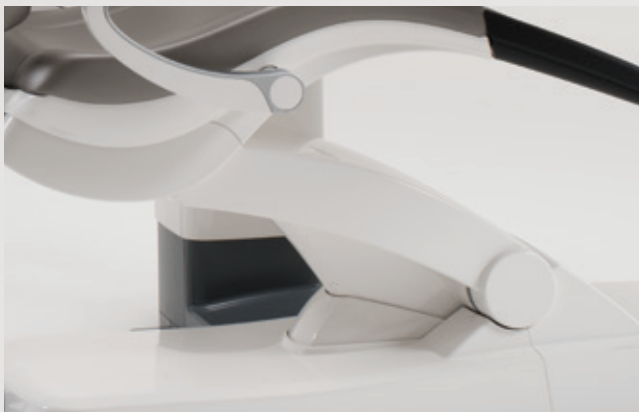

HELIODENT^{PLUS}

Readily integrable with INTEGEO, the HELIODENT^{PLUS} x-ray tube head fits into every practice and can be mounted on the wall, ceiling, or as a mobile unit.

DOUBLE ARTICULATING HEADREST

Easier to position and allows optimal visibility.

ELEVATION SYSTEM

Gentle chair lift drive accommodates patients up to 407 pounds.

CUSPIDOR

Removable and swiveling, easy to clean, and easily accessible.

4-WAY FOOT SWITCH

Regulates up/down and forward/backward movement of the chair, preset patient chair positions, and the advanced electronic foot control—the central control unit of INTEGEO.
